Mind Work Shop, full of random, different, and mutating psychosms,

- One word, term, concept, idea, thought, object, thing, *point* ... can always be looked at wholly as One liquid, moving, flowing, and transforming always into ever new stages of wholeness with, hehe, the addition of indispensable extra components for energy and power transmission, reception, transfiguration, general vibrational, transformation, transmutation, transit, and even transerve which of these some can be said to be perfecting beings on a ~~scale~~ ^{for} greater scale of octaves than humans have ever known to experience. This would be of the order of a form of a "definition."
- Each new impression brings law-conformable consequences which are tempered, deflected, ignored, directed to the proper center (to be 'proper' here means that the current center of gravity is either focusing consciously on an objective, and the impression directed to the intellectual sub-part, or... the impression is directed to the emotional sub-part because of fascination with some object, or perhaps the mechanical sub-part is directed the impression due to identification of your Self to Unreality, Fiction, Negative Imagination, Fantasy, and the ultimately Futile and Impossible.) But continuing this subtopic into another, how is one to determine which of the primary centers the center of gravity of the sub-part's attention, that one is in, operating from, functioning, and otherwise existing and serving a purpose, we know some data about how to determine this basic and essential locating of our own primary focus point of awareness... the centers are located throughout the body to varying degrees but their centers are concentrated in the ^{top} front of the head/forehead/front of the brain/neocortex/cerebrum — in the solar plexus of front middle of chest — base of spine/the Prime 8 super base template cells/sometimes taken as the whole spine. This expands with cerebellum/back of head/back of the brain — heart/back of chest — genitals/crotch...
- Point? One point can always be viewed as a composition of three other points, or one point can always be observed to be to exist in the three points' only possible number of permutation patterns of one-appearance-only of each of the three points *continued*

Oh God, God put us inside God's head, and now God is giving head to God! For God's sake, God must be out of his mind, to give God a chance to be God! Please Lord, have mercy on me, a sinner. How do you kill a tapeworm?

- ① Determine to spend X amount of minutes in meditation
- ② Wait for it to appear - however you can recognize it
- ③ Try, really, as if it were a live person in front of you, to engage it in meaningful discourse
- ④ Pause and really try to discern the tapeworm's responses to your intimations...
- ⑤ Decide whether to excise the tapeworm.
- ⑥ If so, first concentrate on your Self with all that is left of your ego. Next, recall every bit, shred, or scrap of actual evidence which identifies or might indicate the identity of this tapeworm. Finally, expose the tapeworm's essence to your own by triangulating its current position from the recalled records
- ⑦ If you did it right, the tapeworm has been "eaten" by your Self Essence and either left you or become your conscious slave. ;)

There was a fool named Mi

He loved a boy, like a father,  
But he also loved his pecker

The fool would think about this boy,  
Considering rhythms that would expose his toy,

He'd be ashamed by every passer-by!

"The friend will come to me on time;  
this boy can serve as example, model, and channel,

Self

crazy? eh? I definitely thinks s.!

① climbing a mountain, fuck many women/men or one a lot, write a book, create art or entertainment, keep up with tv and radio and books and movies I like, find a means to gather pupils together from the general public, in order to train them to Be One with All, All with One the All in All, and One to One, here.

② establish a self-calm beyond all appearances, become someone ~~not~~ truly... magnetizing and mesmerizing and CONSCIOUSNESS-BUILDING-IZING! In other words I wish to become someone who is the Master of His Self and his environment, in tune, flowing, at ease, and also respected and revered for these very qualities without any enemies and yet, with free time to spare.

③ ? to know ALL about ALL in ALL details

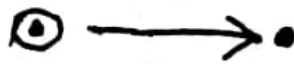

There is a perfect love, a perfect lover... and  
a perfect loving... 

Rarely, do these all coincide into one relationship...

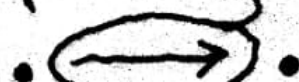

A perfect love is one - in which there is only one. It attracts devotion, feeds the flames of its desire when apart with the fruits of the tree which grew from the seed of the perfect love's first encounter. It does not need water, but when it does receive water, it will spit it back at you in playful spite, without getting wet. It is the Beloved, precisely because it is loving, lovable, and lovely - to be loved, and have a beloved.

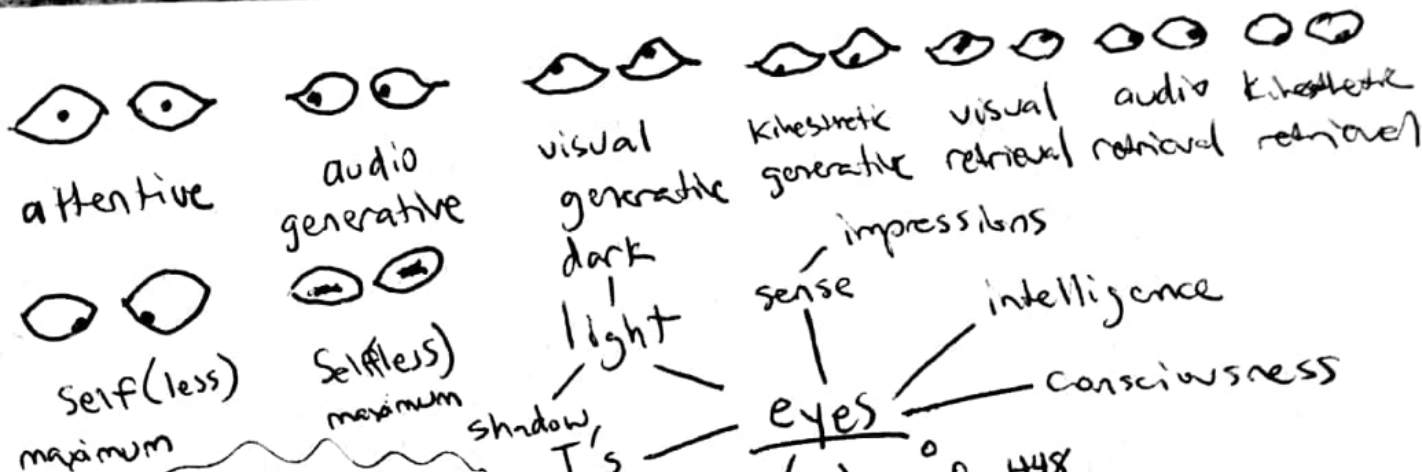

A perfect lover is an artist... architect... nay, Arkangel, who directs his love toward the one he loves with total, self-less devotion - because his very, most essential Self is fed by the electromagnetic-like spectrum of energy constantly being sent from his Beloved. He does not need this any more than he needs his next breath without it. Playing, plotting, planning begin and cease, yet the perfect lover never makes an object of these. Merely, they propose to reveal steps for further union, ecstasy, integration, and fulfillment with the Beloved.

A perfect loving... can only happen once. It has never happened before, and never again. It is total and disabling force that is only experienced when both sides connect and energy transfers, real through violet, are fairly distributed; a game ensuing on another level - perfect loving is devotionally self-perfecting and the essence of desire in this universe.

Here is the man, I am... I like the lower part of a man; the chest and abs turn me on; and a man's head, or his face, is the most attracting factor, if this includes hair. Hair really attracts me - I feel that I could just stare at his hair for hours. Each hair tells a story; why - what if each one represents a past life? Or all our lives? I like long hair on guys but not girly. I definitely prefer masculine men. Masculine men who aren't goofy, old-looking, too sculpted, overeager, or under-eager, but just pretty, beautiful, sinfully seductive, sexy, smart, intelligent; I like it when they spank me with his disinterest, showers me with questions when he knows I'm uncomfortable, ~~and~~ and gives me loving-hell every time ~~we~~ we spend at least 20 minutes together. I admire bravery, courage, strength, but most of all: honor. Honor is reciprocation, rapport, and trust. Honor and trust are the first, final, and only important things to me. The body ~~will~~ will fade! The body will not fade as fast due to my efforts for me and my life partner. Oh Lord, where do I find my lover? My first lover, AT LEAST? I CAN lose a lover, but where do I find one? If this would piss off my final, real, true, ultimate, absolute, soul, and spiritual mate then I naturally, of course, it follows that I will not sleep w/ anyone else. } The eyes..... (next page)  
... that can see the sea of love, and loving. I want a worker that will join my network and leave his et. 3/2011 pole mark past, present, and future networks "in spirit" for my

No game is fun if the outcome is known in advance. In the Realm of the Self, we love outdoing ourselves. This ego game can be turned into the enlightenment game! More letters to play with, at least. ~ Are you with me? of course, we are bound, hand and foot, to US. The Many I's are a reality - but so is the Big I, the single, real, and permanent. The I that resides in a dick is so utterly complex, I hope it takes us longer and harder to keep acquainting ourselves. ~ Some I's are pissed at the Big I and somehow hope against hoping that they can take the reins and ride in the carriage "just one more time"... but their days are numbered our friend. The Guest has arrived!!!

AD telling me that I go to disaster by wanting my dick sucked  
Or, by putting my dick in another's mouth, he says it's really.

Only He is God consciously who in turn has a conscious God. To be utterly mechanical, one has ceased to require any Objective Reality input to its consciousness processes, and thus proceeds as a machine automatically. The consciousness involved will eventually lose interest until finally a realization of non-identity with the previously identified interest. This is what is called fagolished.

Astral body opposes physical body. Astral body controls physical body by a sort of magnetism. Astral body disintegrates upon meeting lighter matter. It is connected to the hara by a silver thin cord. When you dream lucidly, the astral body is present and away from the physical body.

Root out the weeds

My dear Indefinable and Quite Uncatchable Impulse

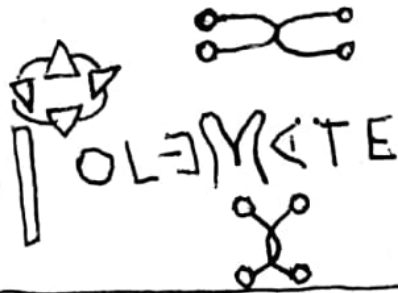

You are a demon, addicted to my conscious mind.  
This is not a passing storm, but a growing unrest.  
My soul is bleeding, and you are a temporary bandage.  
I am the only song I want to hear. You are the  
static and noise preventing me from being here.

Of all the stars in the sky, I choose one, because long, long ago, it chose me. Every Waldo I've ever found was dedicated to you. You are my pole mate. Several lives ago we began gender experimentation. We both like male the best, and also prefer male companionship. We got into the Occult scene at the time and learned, or rather formulated, a way to bind and bond our spirit selves so that never again would we have to start from scratch. It is always me, the Alpha, who must study and learn the Occult ways, which are really just Universal Spiritual Magick. I save as much personal power as I can, storing it in as many places I can, until I meet a potential Omega, you. This life I had two false starts. This — could be a false start. But, to my pole mate:

- Our hearts beat synchronistically... with awareness, we can steady a fast heart beat or quicken a slow one; in others, too, but especially for each other we play with the tempo — especially if one of us senses loss or danger on the other's part that could be avoided with a little psychic heart massage...
- Our minds can best be likened to concentric games. Some games are so awesome that we're saving them for later (...after 2142?) Other games one of us takes really seriously while the other either fucks around aimlessly or fucks with the serious one. When both of us take a game seriously, we take each other more seriously. These are the games that make our pole twist and gain.
- Our souls know, feel, and sense each other so well and so intimately, that I can literally say you have never been cross with me. And that says so much to my cursed soul. You have dealt with me with honor, and all I did was gratify a temporal, transient desire — that although with best intentions of connecting us again for the next life, sharing love codes mainly your way, trying to succeed in our quest to achieve immortality — I should have waited until you were absolutely ready. And for this I give my legs to have you back.

But your key will never work in another's lock. You must open your

truly knowing your stuff, ask to see, play, and touch another's.

When two beings are connected in essence, the consciousness and conscience are shared between them, to the degree of contact created between various centers of their various bodies. For instance, the physical body sleeps but the astral, mental, and causal bodies are here with me. Or... I am trying as hard as I can to find my lost pencil, but my mental body is with you because you are taking an important test. Or I feel dull and lifeless because my astral body is needed for recreation.

Does the lack of consciousness cause remembrance of conscience? When you realize there is a locked box, with treasures galore, all for you, made, designed, and placed there for you, don't it piss you off the deep end when you sit on your ass day after day with the key in your hand... but you wait for your pole mate's key to open it, thinking it will be more special that way. Wait as long as you like on one potential pole mate, or 50 all-at-once or one at a time... But your key will never work in another's lock. You must open your own box, find your own pants of Holding, and then, and only then, after fully knowing your stuff, ask to see, play, and touch another's.

(worst case)

There is no such thing as love on the planet Earth. This is an old, cold, barren, desolate, and hard place to incarnate.

 Emotions, their emotional centers, feelings, and all sensing outside a certain range has been banned, tortured, abused, beaten, and tormented into crude, illusionary, "delusional", and outrightly distorted, copies and clones; reflections of an ancient imagination.

 Thoughts and ideas have reverted into primitive mimics of something someone might have said at some distant point in the past. Repetition would be better than the regurgitation of such ignorant stupidity that would annoy a cave man.

 All I love is dead to me. My BFF Garrett Thue is not the man I'd hoped he'd be - he does not even register on the scale I weigh people on.

 May all traces of impetus toward this person who I will from now on piss on be erased, wiped, eradicated, and annihilated.

 (emptying my cup of him)

Dear God,

May all my fear of not finding my pale made white while we're both still attractive and young be eased by a dream tonight. I still fervently wish for this  empty cup to be filled with his little man. Ryan Newfoundler says 5 years. I will wait.

I pray with all my being that those who inflict suffering on others, especially those who are trying to help them, receive an awakening awareness of real consciousness, which will cause their stepping corn to be visible to all workers of the Light. May they spend their embryonic time by themselves watching others on their little boxes and eating their TV dinners. **FUCK THEM!**
