

The Green Dragon's Shadow Book

About Science, Magic, and Golems

By Fuantum

Thanks go out to:

Pioneers of the last generation, my fraternity, my class of 2000, all my many friends and allies, even to my few and forlorn enemies, but especially to my immediate family.....

I could not have done it with you.

— Chas Ellis

P.S. Enjoy the empty pages to write your own notes and scribble your own work!

P.S.S. Golems are almost never real. This book is meant for humor and for historic record. Parts are very real, and hopefully, the whole work will be helpful.

PETER PAUPER PRESS

Fine Books and Gifts Since 1928

Our Company

In 1928, at the age of twenty-two, Peter Beilenson began printing books on a small press in the basement of his parents' home in Larchmont, New York. Peter—and later his wife, Edna—sought to create fine books that sold at “prices even a pauper could afford.”

Today, still family owned and operated, Peter Pauper Press continues to honor our founders' legacy—and our customers' expectations—of beauty, quality, and value.

“No longer”

No longer will we put you places —
teleporting, shimmering, transporting,
orbing, zooming, zipping, or ‘star seeding’
No longer will we make sounds for
them when we act.

No longer will we go into a trance-like
sleepwalking coma in someone else or
get trapped in someone's penis or trap.

No longer will we entertain the notion
that we have to do what they say —
Mark, Matt, or Rob. (or Bruce)

No longer will I, natural, speak to
CG as a confidant. Nor I, divine,
to RP.

No longer will I do as they demand —
to look at them when I say their
name — repeat what is said to me
word for word to certain others (PR,
DP, MR, CG, MW, GT, MS) — or (+P, B or
RR sure)
tell certain people (↑) when certain
names are mentioned (us, or them).

Golems can be male or female
 butt! (maybe only from sperm)

They usually have 4 removable rings
 on their penis, an object or coin in
 their mouth, rings on their nipples,
 armpit hairs, eyes, nose, ears, hair,
 fingers, toes, ass(?!), 2 or 3 objects
 in belly, etc. for practically all
 functions. Also, they may hold two
 rocks,

11/9/15

Golems also usually have a chicken
 bone attached to the lid of their box.
 They cannot move if they touch it.

Bohem powers are focused in
rings. They flow power at a
right angle through some form
of etheric induction or magnetism.

- Backwards - Forwards share the ~~last~~ letter.
 - Forwards - Backwards share the ~~first~~ letter.
- last

- 'They' can make your eyes tired and even look baggy or wrinkled by placing spells - even in the moment - to make your glasses or mirrors reflect untrue.

- They are capable of healing and forgiveness - even letting go or concealing of old karma - when the atmosphere is clear of past evil and power plays. Accept the healing if it helps but not otherwise.

- Attaching their "truth" to your perceptions - or anything else for that matter makes it smaller.

- You can "spot check" each color - or a few main ones - and black and white with each other's colors of your own bodies or use logic to become aware of the spell to dispell it.

- Golems are real. They exist on the astral plane. Finding their code depends on their containers - boxes, chests, etc. - which contain valuable (to them) materials (objects) which are animated by sperm (or egg, perhaps). They are animated by God, Yahweh, Jehova, Brahma, Vishnu, Shiva, Allah, or $\Sigma M E T$. Removing the first letter and erasing their name is a good way to start erasing and removing. Their stuff exists as a projection we feel on their astral projection person. And, once their stuff is moved, they can forget where it is and the astral link destroyed. They go 'poof'. Uniting United in a common purpose, they will be defeated. The Earth will never be destroyed as they wish. Ever..

When you shrink a golem, what happens to its statues? Or objects and things?

Sometimes they explode when they do not know where their parts are.

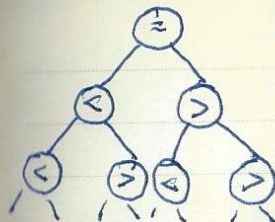

Find their name, see it, confuse or reverse it - see their face, look at the name of names that animates it, remove the first letter or sound - then remember God and pray they choose their next incarnation wisely. Also, you can hold and erase their name sometimes too,

11/5/15

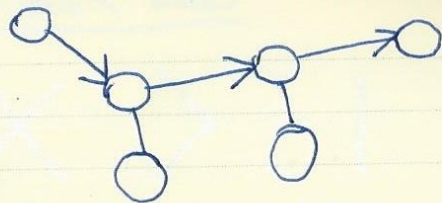

Shems have their name on it; they fall apart without them. They are usually in the mouth, and they can eat others so there can be more than one shem. Some call it mesh to be funny. They can be on cloth or the penis (many).

- To charge one way is to build a vibration with mantra and have your eyes closed, then open to release it,
- Golems can be defeated. Do not give up hope. They use any and every means to stay alive. They even use eye dirt.
- If you have golems before astral, etc, you are unlikely to develop in the proper direction.
- They will cough dust if they have other's shams in them.
- Dead golems pass faster outside,

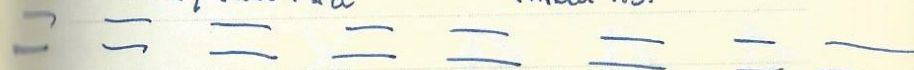

- We do not need to repeat or say aloud what you or others do always.
- We do not have a private channel, an 'automatic' still small voice, nor voices in the sky from the planets, sun, or stars. You eventually know your own voice.
- We can always communicate mind to mind and center to center with or without words, but we do not have to 'come at' to do so.
- Mind, spirit, soul, and your body are separate yet equal. Important that they are capable of different actions and have various center functions.
- We do not need to leave the body to check the nexus or anything really.
- Spirit moves. Each spirit moves itself and can be moved.
- Do not let there be a disruption between or among your mind, body, spirit, and soul. Distortions too!

10 Ways to Kill A Golem

- ① Remove a letter from their forehead
- ② Look for their name, say it backwards and erase it
- ③ Their crux, the sperm, travels with it and can be destroyed in them or fire
- ④ Make their stem dissolve in their mouth or take it away and keep it out
- ⑤ Telekinetically take away some or all of their function rings
- ⑥ Pull out their vital organ parts
- ⑦ Destroy their 'remains' that are usually in a box buried in the ground
- ⑧ Eat or digest them. You have more power over them if they are inside, so you can use the above methods.
- ⑨ Move them to your mouth and swallow.
- ⑩ Take away or destroy their crystals in their heads or their objects they hold.
- ⑪ Erase, remove, and/or hold their teeth from their forehead.

- Look at the contour, edge, frame, or boundary to see if it is a projection. (on outline)

- Golems stop their maker's development generally.

- When you feel a strong wind, be cautious because it will fly you away if you go with it - any body of yours ever.

11/9/15

We were infested with Golems.
They had eyes, ears, nose, tongue,
lips, brains, chest/heart, arms, knees,
tummy, legs... We had to get every
single one of them out of us by
means previously mentioned, and send
them to the light. Thank goodness
for the Prior I Imports S^t Candles,
- They may be able to have more
than one cross, but cross and
shem united spells destruction.

- When you look at something, you are not that. When you are something, you cannot see it.

o How can the tip of a finger touch the tip of that finger?

- When you are something, how can you be it? If you are not something, how can you not be it?

o I'd^(A) rather be one than see one.

- When I look at it, it is there. When I do not look at it, it isn't.

o Peek-a-boo! Patty cake, patty cake - baka man - rollem up rollem up - put 'em in a pan.

- Perfection is something else.

o 'Nothing is perfect that can't be.'

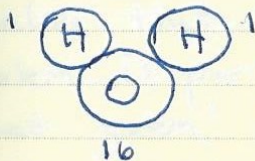

- Reflection is also something else, Reflection is something, too.

Reflect on this, and you'll be reflecting on this. Etc.

o 'Perfect your reflection, do not reflect your perfection.'

- You do not have to think or do magic on the out or in breath only - or anything else particularly unless that is your preference - except breathe.

- Golem is an amazing trap. The people make them and trap themselves in a box! They are perpetually hurt for keeping their own self separated from itself! When golems are around, try to realize that the maker of that golem is partly trapped also in that golem! When their spirit regroups, they will be bittersweetly happy because they will be more whole, and remember the good, bad, ugly.

- Also, their development will recommence and they will be more complete.

- Moreover, they will more swiftly receive Divine Justice since they will be able to account for everything.

- Further, golems will be happier too - not trapped by thirty things of various materials, or rotten pieces of flesh; or even gold balls!

- Golems can trap spirit with the best of them if their person has sperm or egg of one on their hands. It will become warts when you overcome the evil. Do not be attracted to your sex in others. Also, the golems have to use their maker's soul to trap part of your soul - so if you must to ward them away - they are sucking from their end so it pulls them out of the golem's hands.

- They trick your sperm into thinking or feeling that it's their own - like it is their spirit - and it used to go right to them and they would trap our spirits. It also happens especially when a woman.

- You can never "be" anyone but your self. You can, perhaps, possess someone and pretend.

You can never actually be anything other than what you are and what your soul or spirit makes of it.

- Solution of soil is soul.

- The Work is so laid out - with its official authorities and relative importances - that it rarely, if ever, contradicts itself. This is what makes it an interesting pastime, and it is the source of a tremendous creativity.

"MAGIC"

No matter what you do -

You must have the energy.

There is not all the time in the world

For all and everything in space.

Because stuff becomes chaotic;

Only some becomes more orderly.

Color is not as rare

As black and white truth;

Paradoxes exist and abound

While reconciliations are hard to find.

Never give up or surrender

To anything less than your highest right.

Left and right are not the same

But similar to right and wrong.

Good and bad usually follows

But different than good and evil.

Rich in taste, texture, and spice

or expensive sights and sounds

become second nature and cheap.

Suffering is real for those going through

What's fake is the illusion.

Being responsible with authority is not a pleasant task all the time. For instance, deliberately misleading people can lead to your death or imprisonment - now or in the here-after. Also, stupid mistakes with written instructions can easily lead to their unnecessary suffering. Additionally most people resent being told what to do and what not to do, especially without good reasons. So, natural, wants to publish a brain code book.

It is good to write potential patterns of codes, etc., especially with the understanding that they are only possibilities of many, or probable good ones.

It is good to explain science logically in the form of examples or exposition.

It is good to write short stories, metaphors, analogies, allegories, and myths when they can be useful in general.

When you explain something fully, do you always end with the same thing.

Atoms, matter, spirit, or soul?
Then what was the point of the explanation?

- The more explained something is, the less it needs explanation.
The less explained, if desired, requires more explanation.

- Impossible things are unreal.
Some seemingly impossible things for some people, reveal how to make them impossible for you.
Maybe vice versa.

Do I say that every time?
Sorry. Wehe.

Devil worship begins by
trapping circles, circle trapping -
in other words, their power
is based on traps of
parts - and if they do not
honor circles - other people's
eyes - they might be witnessed
or held accountable - or it
just happens that a trap
breaks off theirs - in their
brains perhaps - hence, the
magical law of three -
what happens to you -
happens (it's real) - and it
can happen to others -
you get what you send -
you receive what you give -
good or bad - karma &
magical wisdom LOL

You'll always get what you put
in... always
