OKAY THERE

IS THE

ANSWER

YOU BELONG

SOMEWHERE

There are people who will not stop at anything short of everything

These people must be directed to psychiatric hospitals

They cross the line too many times to be sane

Either they are controlled or have no mind of their own

They do not seem to care about others

They are extremely selfish and vindictive

They take no thought for the morrow

They seem to want to live but actually they are looking for reasons to do so

They may be in denial about fundamental features of their personality

Finally, be calm & patient they will eventually self destruct

When confronting a woman,
respect the lady in her
When confronting a man,
respect his pride

Do not attack vanity
or you will probably reject
it unless you are teaching a
hard lesson.

When someone wants something
from you, that you cannot
give away, trade, or copy
and saying goodbye leaves
them wanting...

When wishing the best for
them has subsided,
who are you left with
but God? What is left to
do but pray?

So, pray for them in front
of them. Be eloquent and
make stuff up. Be flowing.
Be loud, Be persistent, Make
sense,

Some things are only for one gender, or generation, or one class. Do not feel left out, because sometimes you are being spared.

I am a man. I do not know women. A woman should not expect to "know" men.

It is a delusion to feel you completely know something when you are not that something.

We can know things about each other, and we can always learn more. ~~But~~ ^{Thing is} we can really only know ourselves, fully and sincerely.

POWER

Perception is a sacred thing. It is completely protected from outside perceptions. One can see through another's eyes, hear through their ears, and even move their body about, but you can never BE them, or their perception.

Consciousness is very similar to perceiving; it is like its medium. I know these things from logical analysis and personal experience.

If you possess the ability to be yourself by yourself, with or without a mate, consider yourself very fortunate. 😊

Many people are uncomfortable in their bodies. Some feel like mutants. Others feel small. And some have huge egos that never seem to land anywhere. Maybe a few are too humble ~~at~~ neck.

What can we do but learn from ~~others~~ each other and share our wisdom?

POWER

Everyone, who, seeks, another's, power, or powers, will, eventually, be, turned, on, their, own, without, the, other,

Without the other the power has not the same energy source.

Usually, I feel, the power disappears or changes (reduces) dramatically when the energy source dies or is replaced with another.

Like the centers of our body... each one requires a certain fuel that malfunctions when we feed it the wrong fuel. Some need kerosene, others gasoline, some butane. Some diesel. Etc.

If someone comes by regularly and negates your body habitually, be on the look out for an energy drain(er) and a power stoler.

If you have my phase
I take it away at my will.
It is my phase.
Everyone has one. Phases pass.

Remember

- ① Control hurts you.
It can be "increased".
- ② Immediate aura is not
the same as touch aura.
- ③ Keep some of your aura
inside do not let them
suck on it much if that
is not your intention.
- ④ Squeeze them with your
mind if you have to.
- ⑤ With all your might.
- ⑥ Must tense lower section,
tummy hole, and close
mouth. Heal sores as
soon as possible. Do
not dip unless you ~~are~~
are just beginning otherwise
gout as soon as possible.

It is possible to do many things with life and others.

When you concentrate on your self primarily, and what is happening to you and not others - you have an advantage.

When you consider the scenario, circumstances, and situation, you have leverage.

There is a theory about attacking and defending. It goes something like those who attack first are always at a disadvantage. They may have more leverage at first, but the counter-attack, well, think on this a little. I maybe not tell this semi-paradox because maybe everyone can find their own answer, or their own proof in their experience.

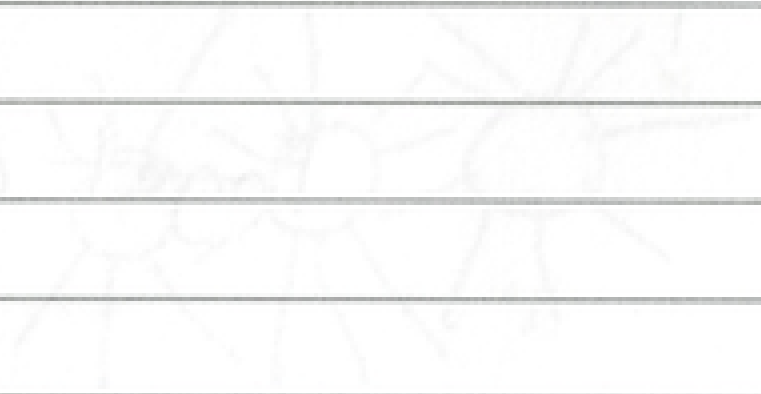

You can step out of time
and place - take a breather. ^{live}

⊙ P.E.A. CAUSAL M.F.W.S. ⊙
 'I' ~

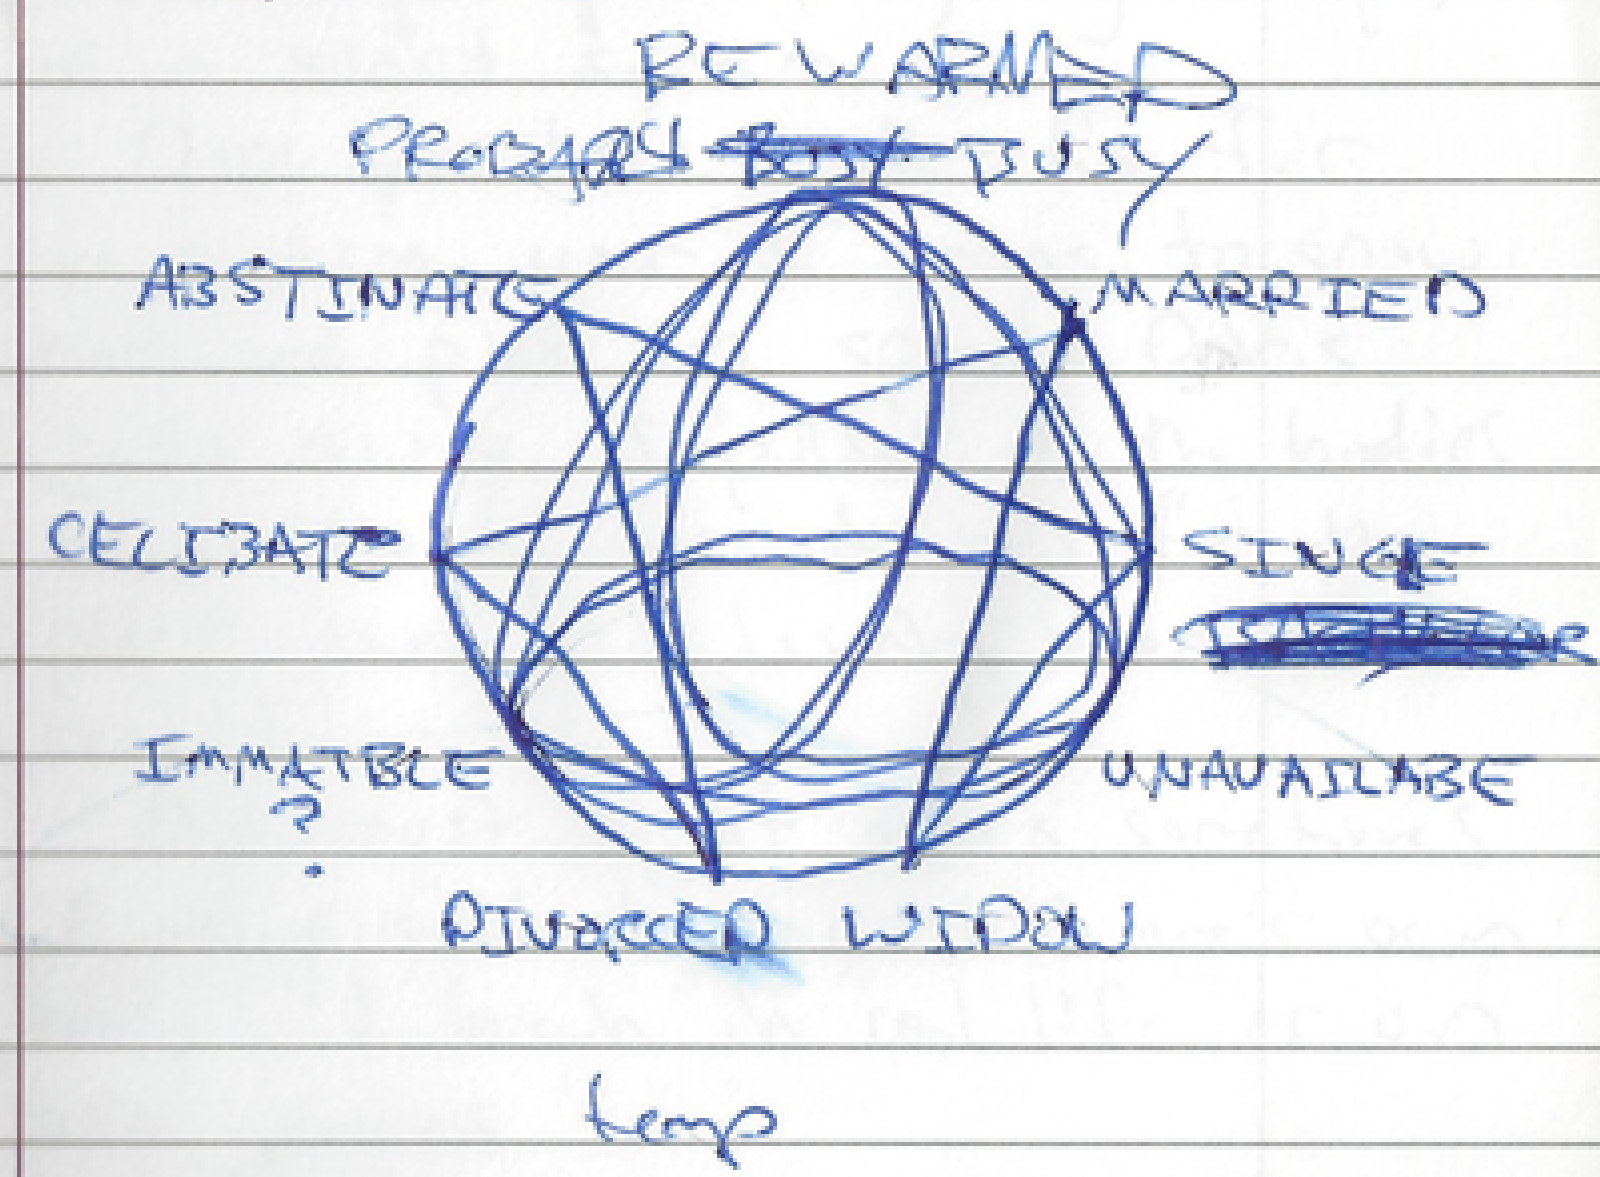

I am going to try to even the playing field. Every twilight morning and night, the pain given should return to the person who originated them, controlled or not. I am going to try to do this from now on.

If not immediately, the originator of the pain gets it back anyway so this will help the karmic burden of the world at large. It will not include feedback loops if there is forgiveness, accident, not expectant, and also if the eye for an eye has already been settled. This is for personal but it affects others so I take it out.

Why cause someone else pain? Especially why there is no reward but some kind of worthless humor? Or are you ship amongst a group of people. Or for experiment? to see what could happen.

The golems "take something out", "hold something", or "move your energy in the wrong place or make you start from the wrong place"...

In order to prevent them from doing so, you have to keep a record and practice. Remember yourself, observe yourself, and remember their tricks after you have observed the situation as well.

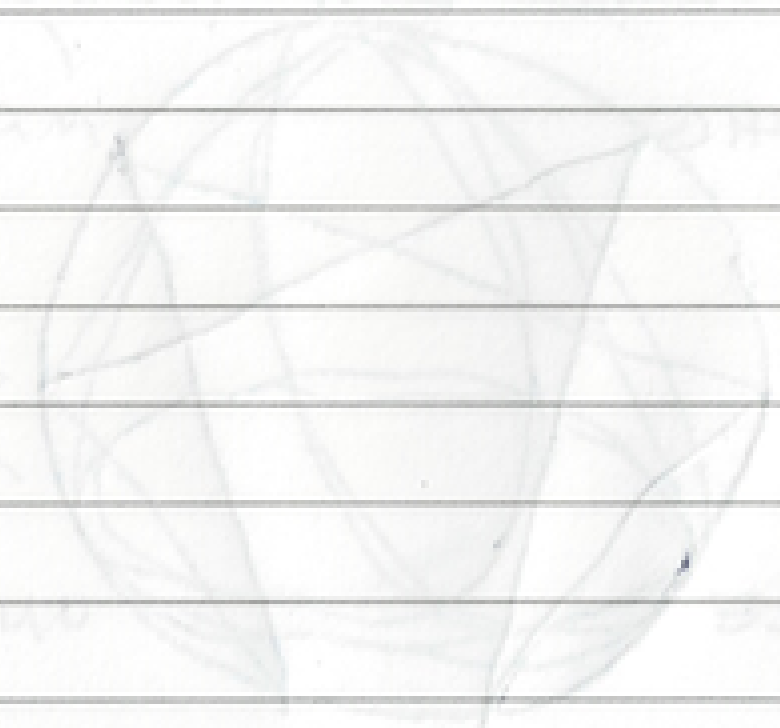

Control of yourself begins with knowledge of yourself. You must begin to know what is "you" and what is "them."

In the West, this is called False Personality () vs. Personality of one's real, permanent, single I.

One must try to unify themselves as much as possible according to a few simple principles, a good map, or a strict system.

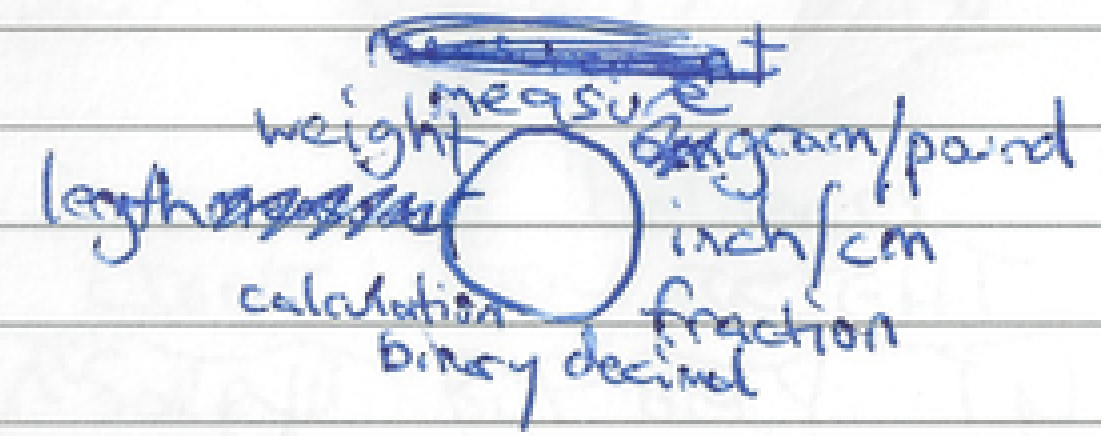

Once you have a direction for your aim, your 'I' seems to snow ball and pick up speed. Petris falls away. Impulses of the bodies follow the proper desires for the proper thoughts issuing from the real 'I'.

One must fight others sometimes if they feel they control one's own body and brain in real life or on other planes.
